Activity: Supplier of precision balls made from all kinds of current materials available in all common diameters, needle rollers, machined parts, as well as ceramic components.

Branches: Spherotech AG, Zug/Switzerland
Nanjing Spherotech Precision Machinery Co. Ltd., Nanjing/China

Premises: Total building space of 1.200 m² divided into 200 m² office area and 1.000 m² warehouse area / resp. storages space for 1.200 pallets.

Delivery possibilities: Thanks to our large warehouse Spherotech is mostly able to deliver balls immediately after receipt of an order. Annual contracts are managed by our sales department. Usually first orders can be delivered within 2 – 3 months and balls for follow-up orders can be stocked in accordance with customers' instructions.

Certification: Spherotech is certified according to DIN EN ISO 9001.

**Quality control and
Certificates:** All incoming balls are again checked in our laboratory. We perform all usual quality criteria such as dimension, sphericity, tolerance and surface appearance. For this task we employ four specialists. Upon request we supply corresponding measuring reports, quality control and material testing certificates.
